Franklin County Saddle Club Welcomes

Jerry Huntsinger, DAEP

Podiatry for the Modern Equine Athlete

Educational Seminar

Friday, December 4th

7:00 PM
Franklin County Saddle Club
2801 Road 60, Pasco WA

Applied Equine Podiatry (AEP) is a modern science-based approach to hoof care that prioritizes internal balance, natural function and long-term soundness. Jerry will help us to understand a healthy hoof is made up of seven key structures, all working together. The AEP method is rooted in anatomy, movement, and functional observation with a deep respect for the horse's innate ability to heal when supported by the right conditions.

Open to all Horse Owners, Farriers, Barefoot Trimmers and Veterinarians. Pre-Registration required * $25 to non-members

Based on interest Jerry will be available Saturday for evaluations and demonstrations.

Call Laurie @ 509-528-9026
